 OF OUR
 TERRA COTTA
 KILNS.

THE FIRST OF THESE KILNS
 built in the UNITED STATES was built in Chicago, in 1871,
 FOR THE CHICAGO TERRA COTTA CO BY
 OUR SUPERINTENDENT.

James Taylor.

OFFICES & STUDIOS
of the
Boston Terra Cotta Company.

Jas. Taylor, Supt.

BOSTON TERRA COTTA CO.

394 FEDERAL STREET,
BOSTON, MASS., June 1, 1884.

To Architects and Others:

WE present this *fifth* edition of sketches, illustrating some of the uses to which TERRA COTTA is applied, feeling that there is no need of any explanation; the material having become well known to the profession and the building trade, as one possessing many advantages.

The list of buildings in the fore-part, shows how extensively our work is being used throughout the country, and with our lately increased capacity we can assure our customers prompt and good service.

The illustrations after page sixty-four will also show the style of buildings in which it has been used.

We would call especial attention to our very large assortment of Stock Patterns of *Tiles, Panels, Moulded Courses, Chimney-Tops, Wall Coping, Pressed Moulded Brick, &c., &c.*

CHIMNEYS capped with TERRA COTTA TOPS have a finished appearance. The draught is greatly improved, down draught being prevented by the use of our "*Ring Top and Covered Flue,*" and the top courses of brick being preserved from getting loose.

Walls finished with TERRA COTTA COPING are also made secure from the loosening of the upper courses, and owners will find it the *Cheapest and Best* wall preserver.

DECORATIVE WORK and MOULDINGS in TERRA COTTA require no anchors, making a perfect bond in itself; and the material, being the same as brick, clearly indicates that it is, above all, the one to use with brick.

We are also giving much attention to *Interior Terra Cotta* for *Fire Places, Wainscoting, &c., &c.*

We are now manufacturing and are prepared to furnish *Hollow Brick* and other *Fire-Proof Material*.

Our show-room contains a great variety of our work, and we shall be pleased to show you what we are doing if you can find it convenient to call.

Estimates sent on application for all kinds of PLAIN OR ORNAMENTAL TERRA COTTA WORK.

BOSTON TERRA COTTA CO.

Office and Factory, 394 Federal Street.
Down Town Office, 62 Congress Street.

THESE goods commend themselves to all who examine them, and are rapidly growing into favor. Insurance Companies recognize the additional safety against fire secured by the use of these Linings, by insuring buildings thus protected at cheaper rates than they otherwise would. They effectually protect buildings from fires which originate (so frequently) from defective flues.

Prices governed by quantity and place of delivery.
